How is this course assessed?

In order to complete this course successfully, learners will be expected to complete specific assignments AND/OR a Portfolio of Evidence (PoE). There are no exams for this course.

What is a Provider Programme Course?

A provider programme is a course that is developed, curriculated and assessed by The Learning Group. A provider programme carries **no external accreditation** and it has no link to any academic institute. It is a programme intended to provide a learner with knowledge and skills.

A learner is welcome to make reference to his or her successful completion of the provider programme course on his or her CV. Most employers would be happy to see current or potential employees showing interest in improving their skills and knowledge.

According to the *South African Qualifications Authority (SAQA)*, non credit-bearing programmes (such as The Learning Group's provider programmes) can help learners in the following ways:

- They can provide practical or hands-on learning.
- They can increase employability, self-employment opportunities, and mobility within workplaces and sectors.
- They can provide occupationally-directed learning.
- They can contribute towards closing the skills gap as identified in the Workplace Skills Plan, the Sector Skills Plan, and the National Skills Plan.

The Learning Group Certificate in Digital Photography is a Provider Programme.
